Heating System: Ebenspacher warm air heating

The WestWave Dawn is a high powered fast catamaran, which combines the proven sea keeping abilities of the Southboat design with a high specification finish. Commissioned by CZS, the vessel build has been based on our research of industry requirements and our own practical experience of working in the field & providing services to the marine and offshore industry.

CZS is committed to the highest standards of safety and the vessel is fully equipped with the latest in safety systems (SART, EPIRB) and lifesaving appliances. The vessel was built under Irish Marine Survey Office survey; she holds the MCA SCV Workboat Certificate and is coded to MCA Category 2 (60 miles) with Irish P5 licence pending.

Aft Deck

Forward Deck / Transfer Area

Flybridge Observation Area

She is a multi-purpose, strongly built functional workboat. Deck features include a large working deck area, a forward crew transfer area, an open flybridge observation area, a moonpool and a structural mounting area for a crane.

The integrated navigation and communications electronics package includes GPS, open array radar, AIS, Sounder, Autopilot & CCTV Cameras.

The passenger cabin is designed to enhance the comfort and entertainment of our passengers. Features include 14 pilot, fully adjustable, suspension seats with overhead power sockets for laptops, WiFi & warm air heating, with a generator and inverter ensuring a constant supply of power. The dedicated galley area has a water boiler, microwave, fridge & H/C water. On-board entertainment includes Intellian satellite TV receiver with a 24" Samsung screen and Fusion 600 integrated stereo radio, DVD, iPod and CD player and a dedicated charging area for iPods, iPads & mobile phones. On-board toilet facilities include H/C hand basin.

The WestWave Dawn is suitable for a wide range of activities, including support to the offshore wind industry & other offshore developments, research & survey work
